May 7th: Venipuncture Final

ASCP Scholarship Winners!

A huge congratulations to Beth and Samia. They were both awarded the 2014 ASCP Scholarship. The money was awarded to those with high academic standing in a Medical Laboratory Profession. Both of these ladies are extremely hard workers and both deserve the esteemed recognition that comes with this scholarship. If you have yet to congratulate them, please do!

Bake-Sale Success:

Thank you to everyone who participated to make the bake-sale a huge success. If you have not heard already, the grand total was \$305.73! Not only did the staff and student body enjoy the goodies immensely, but they are already looking forward to our next bake-

What's New With the Previous Class?

It has almost been a whole semester since the previous class has finish there journey here at CSCC. A huge congratulations to their current successes and a good luck to their future adventures. Here is a list of job sites and how many of the previous classes now work:

OSU - 4

Riverside - 2

Mt Carmel West - 1

Mt Carmel East - 1

Doctors - 2

Childrens - 1

Adena Health - 1

This will hopefully be motivation to everyone to start thinking about clinical sites — we will be at that point before you know it. While choosing which sites you would like to intern, remember that there is always a potential job once you are done. Treat your clinical experience like an interview: be attentive, be professional, and always asks questions to learn more.

sale. Being a fairly new club, the success of the bake-sale has really helped raise awareness to the program. It was a double win. Thank you again to all who brought in the wide variety of goodies and to all who donated their time to man the table.

Ohio Collaborative Laboratory Conference:

On May 7th-9th the ASCLS of Ohio is holding a conference at the Crowne Plaza - Columbus North. Within these two days, there will be 49 sessions held with a wide variety of topics. If you are wanting to attend, please tell Dr.Tancred, Nick. or Beth so that we can get a head count. There is a fee that is each person will have to pay. Our goal is to get a handful of students to go together. Not only will it be an amazing opportunity, but it will also be a blast!

Inservice Day:

On Thursday April 17th, there will be a teacher inservice day. This means that all classes are cancelled for students. The MLT Club has taken this opportunity to volunteer at the Ohio Food Bank. The Ohio Food Bank is desperate for volunteers to come and help clean and paint the facility for an upcoming inspection. The facility will be closed that day to the public. If you are willing to come, please talk to Beth or Nick about available times, directions, or any other general questions.

Mentor Program:

A Mentorship program for the new class this summer is in the works. We will provide individuals with participant's email address and will be their guide throughout the program. Instead of only asking the instructors good study tips, the new students will have us (the pros of the program) to ask as well!! If you are interested please talk to Nick.
