- **New Parking Policy Discussion with Julie Dudgeon (Manger Facilities Operations & Mailroom Services)**
 - From Rick Hatcher: money from parking fees going directly into operating budget (normally goes into Auxillary fund); ticketing will be enforced for students and employees; does not know why people weren't aware of the parking fee change; VPs knew about changes; decision to change to fee based for employees and increase student fees was "heartfelt"; shift from getting students out of employee lots will likely open up more parking spots in those lots; will continue to look at impact of the changes
 - From Julie Dudgeon – collecting data on parking now; parking "rules" hadn't been enforced for a long time; will get information on the number of employee spots we have
 - Dana Knott shared concerns about changes
